

7 December 2009

To Whom It May Concern,

I am writing this letter on behalf of Jason Kuzia, as a recommendation for his possible employment. Jason has worked for me as an art director and designer in the course of motion picture and theatrical stage productions. I have found Jason to be a team leader and his ability to manage the fabrication or installation phases of work has been a vital asset in realizing my designs. I have come to rely on his knowledge of technical lighting issues and have found his creative input to be timely and cogent. Jason is organized and attentive to detail, in that regard I have at times given him the responsibility for estimating and supervising the budget constraints on various aspects of production projects, within the art department.

In addition to performance production Jason has assisted me with event design and installation, including a spectacular Industry wedding in November 2008, for which the clients continue to express their delight.

I highly recommend Jason Kuzia and think he will be a worthy addition to your creative team.. You may call me if you would like to speak to me further in this matter. Cell phone: 310.927.1478

Yours truly,

Rando Schmook, production designer
